

Know Your Digits! Be In Control.

One in three Los Angeles County residents is not aware that they have high blood pressure. African Americans and certain Latino populations are at an increased risk of high blood pressure, and many don't know how to get help to effectively manage it. Partner with Community Health Councils for our **Know Your Digits! Be In Control.** campaign this August and help get high blood pressure under control.

Corporate Partner

Support **Know Your Digits! Be in Control.** as a Gold, Silver, or Bronze level sponsor and promote your organization. Sponsor benefits include:
