Hypertension Treatment Survey for Physicians

- Adapted with permission from Dr. Alan Ertle
- Based primarily on JNC 8 group report (subject to change)
- Mildly modified to include case application questions
- Reviewed and approved by Dr. Ronald Victor (Co-Editor of Clinical Hypertension and PI on NIH Barbershop HTN project in Los Angeles)
- Formatted in Qualtrics
(https://uscpharmacy.az1.qualtrics.com/SE/?SID=SV_2ocEas7QQCbzjdb)

Demographic Information

Please fill in the following information:

Practice/Medical Group Name (if applicable)	<input type="text"/>
City	<input type="text"/>
State	<input type="text"/>
Postal Code	<input type="text"/>

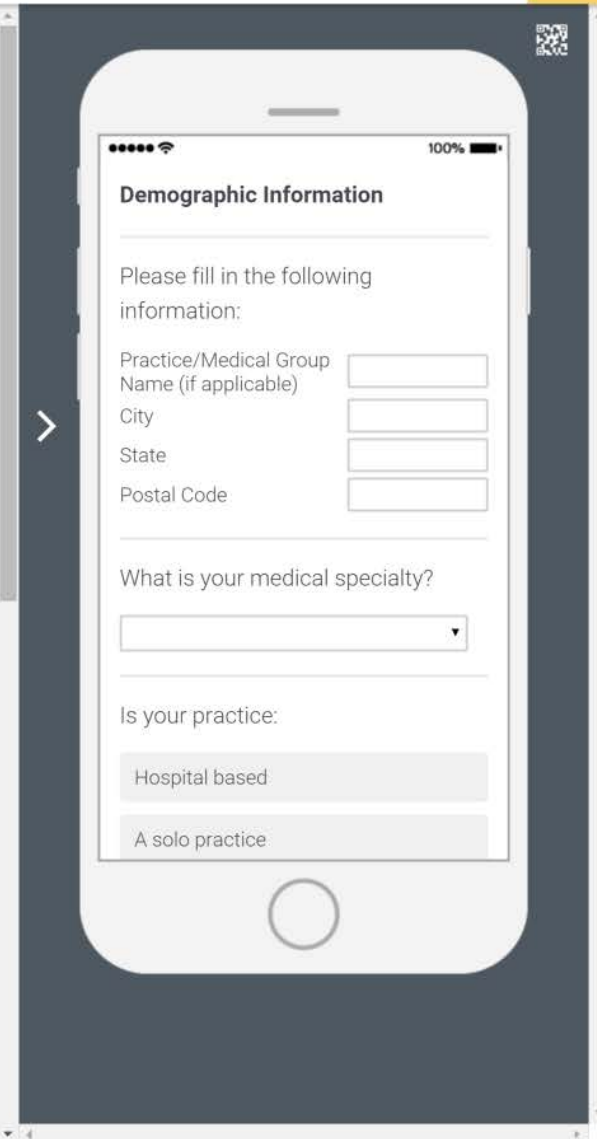

What is your medical specialty?

Is your practice:

- Hospital based
- A solo practice
- A small group practice (5 or fewer physicians)
- A large group practice (6 or more physicians)
- Other

How many years have you been practicing medicine (post-internship)?

- <5
- 5-9
- 10-14
- 15-19
- 20 or more

Hypertension Treatment Survey Next Steps

- Validation
 - Cronbach's alpha test for internal consistency:
Need 60 physicians to complete survey
 - Correlation of survey results with clinical outcome measures (different, larger group of physicians)
- Development of E-Learning module to test knowledge + educate
- Replicate in similar format for medical assistants (focus on appropriate measurement)
