

Right Care Initiative Capital Region University of Best Practices- August 12, 2019

Brian C. Coyne, MD

Family Physician, Medical Director, Radiology Supervisor, Greater Newport Physicians

Dr. Coyne is a board certified physician in family practice and a physician champion for team based care within the Greater Newport Physicians Independent Practice Association. He is a member of the GNP Physician Quality Committee. This committee is responsible for providing system-wide recommendations for quality improvement projects and determine which quality measures are prioritized for the organization in a given measurement year. Dr. Coyne completed his undergraduate degree at UCLA before earning his medical degree at George Washington University in Washington, D.C. He spent 6 years in the US Air Force at Andrews and Luke Air Force bases, eventually separating as a Major. He currently practices with Family Care Centers in Fountain Valley, CA.

Andrea DeCoro, PharmD

Vice President, Pharmacy and Performance Improvement at MemorialCare Medical Foundation

Dr. Andrea De Coro is a long time Right Care champion. She is the Vice President of Clinical Pharmacy Services and Performance Improvement for MemorialCare Medical Foundation (MCMF). This role includes development and departmental oversight of Managed Care Pharmacy, Ambulatory Care Pharmacy, Performance Improvement and Risk Adjustment for MemorialCare Medical Group and Greater Newport Physicians. She is responsible for ensuring these areas produce cost savings, improve patient care outcomes, achieve high quality scores and maintain or improve revenue through appropriate coding and documentation of HCC codes. Andrea graduated with a Doctor of Pharmacy degree from the University of Southern California, School of Pharmacy and completed a residency in Primary Care Pharmacy Practice at the Veterans Affairs Medical Center in Los Angeles, California. Prior to joining MCMF, Andrea had served as the Pharmacy Director at Harriman Jones Medical Group, Medco Health Solutions, Prospect Medical Group and Greater Newport Physicians.

Kristi March, PharmD, BCPS, CDE

Manager, Clinical Pharmacy Ambulatory Care Services, MemorialCare Medical Foundation

Dr. Kristi March is the Manager for Clinical Pharmacy Ambulatory Care Services for MemorialCare Medical Foundation (MCMF) IPA division (Greater Newport Physicians). This role includes development and oversight of the clinical pharmacy services in the ACTIVE Diabetes Program, the Anticoagulation Center and the Special Care Center Post Discharge Clinic. She is also involved in direct care for patients referred to these clinics. Kristi graduated with a Doctor of Pharmacy degree from the University of California, San Francisco, School of Pharmacy and completed a residency in Primary Care Pharmacy Practice at the University of Southern California. Prior to joining MCMF, Kristi worked for the San Francisco Department of Public Health, providing medication management for the underserved population in the safety net clinics. She resides in Huntington Beach and enjoys spending time outdoors with her family.

William J. Bommer, MD, FACP, FACC

Chairman, Right Care Initiative Capital Region University of Best Practices; Executive Committee, American College of Cardiology, California Chapter; Professor, Division of Cardiovascular Medicine, University of California, Davis

Dr. Bommer's service to the American College of Cardiology includes his current role on the California Executive Committee; as well as former roles as President, Vice-President, Governor, and Member of the Board of Governors. As an accomplished UC Davis Clinical Professor of Medicine, he directs UC Davis Cardiology's Noninvasive Services; directs the Cardiology Fellowship Training Program and sees patients in the CCU. As the longest-tenured UCD Training Director, he has trained over 200 practicing cardiologists. Dr. Bommer has been the Principal Investigator or Co-Investigator of multiple NIH, NHLBI, and international research trials. He is a member of 50 international, national, state, and university education commissions and committees. Dr. Bommer founded and is a Board Member of numerous hardware and software startup companies and is an inventor or co-inventor of patents for xerography, color-flow ultrasound imaging, and contrast echocardiography. His public service includes consulting with the State of California and directs multiple programs including CA Pilot PCI (offsite) Program, CA Elective PCI (offsite) Program, and CA Cardiac Surgery and Intervention Outcomes Program. He has authored over 250 scientific publications, received over 100 Honors and Awards, presented over 1000 papers at International, National, and Statewide meetings, and coauthored California Legislation including SB 357 and SB 906. A Physics and Chemistry graduate of Cornell University, he received his medical degree from the State University of New York. He is an Honorary Lifetime Member of the British Cardiovascular Society and an accomplished marathon runner.

Joseph Sky, MD, FACP, FACC

Co-Chair, Capital Region University of Best Practices; Chief of Cardiology, United States Air Force David Grant Medical Center; Medical Director, Metabolic Clinic and Heart, Lung & Vascular Center David Grant Medical Center

Joseph Sky, MD, is the chief of cardiology and medical director of the Heart, Lung and, Vascular Center at David Grant USAF Medical Center serving veterans, active duty military, and their families at Travis Air Force Base. Dr. Joseph Sky was raised in a community closely connected to one of the Blue Zones areas and is currently an active speaker for the Loma Linda Project. Dr. Sky received his bachelor of science from Pacific Union College and his MD from Loma Linda University (1999). He completed his training in internal medicine and cardiology in the US Air Force. Prior to becoming a cardiologist, Dr. Sky served as a flight medicine physician and later chief of the Internal Medicine Branch of the US Air Force School of Aerospace Medicine where he monitored and kept our nation's pilots and those of allied air forces healthy and fit for duty. He is a specialist in integrating modern medical treatments with evidence-based preventive medicine to safely allow military pilots, unmanned aircraft operators, and commercial pilots with cardiovascular disease to continue flying. While Dr. Sky fully embraces western medicine, his enjoyment is finding patients willing to use diet and lifestyle as medicine. He returned from a tour of duty in Iraq in 2018 and is excited to be practicing at a time when science shows the proven value of complementary preventive cardiology.

Matthew P. Wonnacott, MD

Co-Chair, Capital Region University of Best Practices; Chief Medical Officer, Barton Health

As Chief Medical Officer of Barton Health in the South Lake Tahoe region, Dr. Wonnacott's medical practice is devoted to the underserved. He completed his undergraduate coursework at Southern Utah University and received his Medical Degree from the Uniformed Services University of Health Sciences as well as his additional certification from the American Board of Family Medicine. Dr. Wonnacott recently retired as Colonel in the United States Air Force, previously serving as Chief Medical Officer and Deputy Commander for David Grant Medical Center, the Air Force's largest and busiest inpatient platform. He is a physician leader specializing in Family Medicine, with clinical expertise in treating children, adults and geriatric patients. He has served in a variety of clinical, operational, and executive medicine roles over 25 years. He is known for many different professional qualities including compassion and clinical acumen, strategic insight and initiative, with strengths in motivating and influencing people, team leadership and collaboration, partnerships, working with physicians and clinic workflow optimization.

Hattie Rees Hanley, MPP

Director, Right Care Initiative, UC Berkeley School of Public Health, Center for Health Outcomes and Innovation Research

Ms. Hanley co-founded the Right Care Initiative in 2007 with the Deans of the University of California, Berkeley and UCLA's Schools of Public Health, clinical experts, and State of California leadership to improve patient outcomes in high yield areas for preventing disability and death, where the science is clear, but the uptake is uneven. The Right Care Initiative is a public-private, charitably-funded collaborative effort that has thus far worked in the areas of prevention and better management of Hospital Acquired Infections (HAI), heart attacks, strokes, diabetes and heart failure. Ms. Hanley has directed the initiative since its inception, in close collaboration with leading experts in the field. The hallmark of her public policy career is bridging across the disparate arenas of business, government, health care delivery, science and academia. Ms. Hanley received her Master's degree in Public Policy from Harvard University's John F. Kennedy School of Government, after studying health economics and pre-medical coursework at UC Davis. Since that time, she has applied her background in science and public policy in the areas of clinical quality improvement, public health preparedness and improving laws to protect patients. She was instrumental in the negotiations and passage of the set of California laws known as the Patient Bill of Rights, which includes the right to a Second Medical Opinion and Independent Medical Review. The Right Care Initiative is a program within the UC Berkeley School of Public Health's Center for Health Organizational and Innovation Research (CHOIR).
