Acting Director, DHCS

California Health and Human Services Agency

Person Centered. Data Driven.

Our Strategic Priorities

Person Centered. Data Driven.

Build a Healthy
California for All

Improve the Lives of
California's Most Vulnerable

Integrate Health and
Human Services

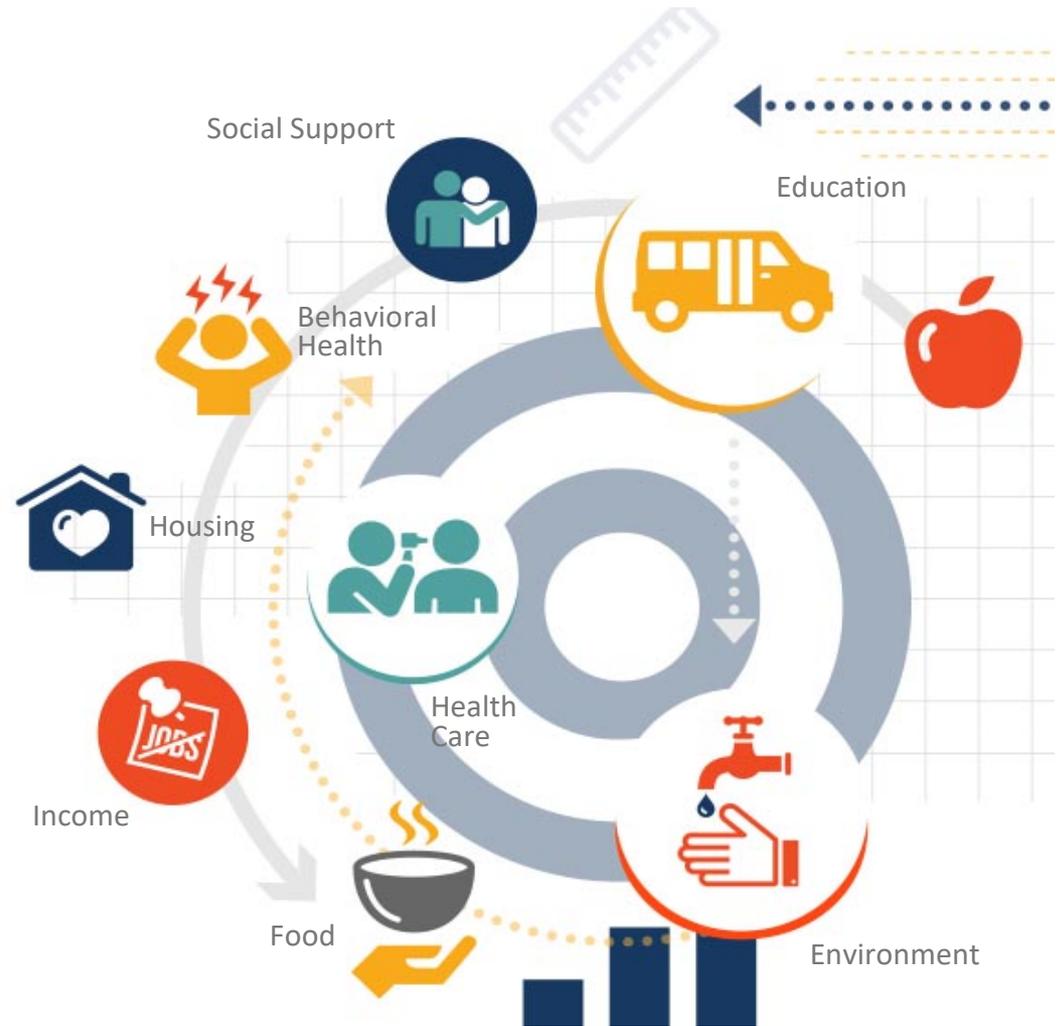

Population Health Drivers

Health starts in our homes, schools, workplaces, neighborhoods, and communities.

We know that taking care of ourselves by eating well and staying active, not smoking, getting the recommended immunizations and screening tests, and seeing a doctor when we are sick all influence our health.

Our health is also determined in part by access to social and economic opportunities; the resources and supports available in our homes, neighborhoods, and communities; the quality of our schooling; the safety of our workplaces; the cleanliness of our water, food, and air; and the nature of our social interactions and relationships.

Healthy California For All Commission

Charged with Developing a Plan for Advancing Progress Toward a Health Care System that Provides Coverage and Access Through a Unified Financing System.

PHASE 1

Environmental Analysis Report
Due July 2020

PHASE 2

Key Design Considerations Report
Due February 2021

Healthy California For All Framework

More Affordable, More Accessible, More Coverage

CalAIM: California Advancing and Innovating Medi-Cal

CalAIM Overview

DHCS has developed a comprehensive and ambitious framework for the upcoming waiver renewals that encompasses a broader delivery system, and program and payment reform across the Medi-Cal program, called CalAIM: California Advancing and Innovating Medi-Cal.

Includes initiatives and reforms for:

- Medi-Cal Managed Care
- Behavioral Health
- Dental
- Other County Programs and Services

CalAIM Guiding Principles

- Improve the member experience.
- Deliver person-centered care that meets the behavioral, developmental, physical, and oral health needs of all members.
- Work to align funding, data reporting, quality and infrastructure to mobilize and incentivize towards common goals.
- Build a data-driven population health management strategy to achieve full system alignment.
- Identify and mitigate social determinants of health and reduce disparities or inequities.
- Drive system transformation that focuses on value and outcomes.
- Eliminate or reduce variation across counties and plans, while recognizing the importance of local innovation.
- Support community activation and engagement.
- Improve plan and provider experience by reducing administrative burden when possible.
- Reduce the per-capita cost over time through iterative system transformation.

Stakeholder Engagement

Throughout 2019 and 2020, DHCS will conduct extensive stakeholder engagement for both CalAIM and the renewal of the 1115 and 1915b waiver(s).

DHCS intends to work with the Administration, Legislature and our other partners on these proposals and recognizes the important need to discuss these issues and their prioritization within the state budget process. These are initial proposals whose implementation will ultimately depend on whether funding is available.

CalAIM Workgroups

Each CalAIM workgroup will be open to the public, so DHCS encourages interested parties to attend and/or submit written comments. Workgroup schedules, agendas, materials, and other CalAIM updates will be made available on the [CalAIM webpage](#).

DHCS will also use the Stakeholder Advisory Committee (SAC) and Behavioral Health SAC to provide critical updates on the CalAIM initiatives on an ongoing basis. While most aspects of CalAIM will be discussed through workgroups, it will not be possible to cover all of the topics for which we have CalAIM proposals. Updates on those proposals that are not presented in the workgroups will be provided during SAC and BH-SAC meetings in early 2020.
