CHOIR CENTER FOR HEALTHCARE ORGANIZATIONAL INNOVATION RESEARCH

Right Care Initiative Goal: Drive Toward Zero Preventable Heart Attack, Stroke, Diabetes, and Heart Failure Deaths & Disabilities Through Best Available Science Combined with Proactive Screening & Outreach

Achieve 80 % in good control, or "A Grade" (90th Percentile) HEDIS levels for Cardiovascular Disease and Diabetes, whichever is greater.

Priority Targets:

- + 80% of hypertensive patients with blood pressure (BP) controlled: <140/90 mm Hg
 - o (Optimally 130/80 mm Hg per 2017 American College of Cardiology Guidelines, endorsed by ACC/AHA/AAPA/ABC/ACPM/AGS/APhA/ASH/ASPC/NMA/PCNA)
- + 80% of diabetic patients with blood sugar controlled: Hemoglobin A1c <8
- + 80% of patients with diabetes and/or cardiovascular conditions on appropriate cholesterol therapy (proxy, LDL controlled: LDL-C <100mg/dL. Or for very high risk ASCVD, LDL-C <70mg/dL or lower)
- + Proactive Community Outreach to Screen & Identify Vulnerable Patients to Connect to Treatment & Support

12:00 – 12:15 p.m.

Welcome and Statewide Updates

Robert Kaplan, PhD – Founding Co-Leader, Right Care Technical Expert Group; Research Director, Clinical Excellence Research Center, Stanford University; Former Chief Science Officer US HHS AHRQ; Former Associate Director, National Institutes of Health

Hattie Rees Hanley, MPP - Director & Co-Founder, Right Care Initiative, Center for Healthcare Organizational and Innovation Research, UC Berkeley School of Public Health

12:15– 1:00 p.m.

National Heart Lung and Blood Institute Strategic Vision

David C. Goff, MD, PhD - Director, Division of Cardiovascular Sciences, National Heart, Lung, and Blood Institute, National Institutes of Health; Former Dean and Professor of Epidemiology, Colorado School of Public Health; Former Chair, Department of Epidemiology and Prevention at the Wake Forest School of Medicine

1:00 – 1:10 p.m.
