DISCLOSURES

No conflicts of interest to report

DISCLAIMER

The views and opinions expressed in this presentation are those of the author and do not necessarily reflect the official policy or position of any public health agency of California or of the United States government.

Public Health

“Public Health is what we, as a society, do collectively to assure the conditions in which people can be healthy.”

Institute of Medicine (IOM), The Future of Public Health.
National Academy Press; Washington, D.C., 1988.

Chronic Disease Control Branch (CDCCB)

Mission

Prevent & optimally manage chronic disease

Decrease the rate of chronic disease-related premature deaths and preventable disability collaborating with partners to:

- monitoring the burden of chronic disease,
- promoting positive lifestyle modifications,
- improving chronic disease systems of care,
- sharing best health practices and innovative research, and
- training future public health leaders.

CDCB Programs & Initiatives

- California Alzheimer's Disease Program
(research, local health department pilot, clinical center services)
- California Farmworker Health Study
- California Heart Disease, Stroke, and Diabetes Prevention
 - California Cardiovascular Disease Prevention Program
 - **California Stroke Registry/California Coverdell Program**
 - Prevention Forward
 - Well-Integrated Screening and Evaluation for Women Across the Nation (WISEWOMAN)
- California Preventive Health and Health Services Block Grant Prevention 2020
- California Sickle Cell Care Centers Network for Adults
- Workforce Development
 - California Epidemiologic Investigation Service Fellowship Program
 - Preventive Medicine Residency Program

California Stroke Registry / California Coverdell Program (CSR/CCP)

- The California Master Plan (2007-2015) for Heart Disease and Stroke Prevention and Treatment
 - recommendation to create a statewide acute stroke care database to monitor quality.
- 2012, CA one of 11 states funded by CDC
- 2015, CA one of 9 states funded by CDC
- CSR monitors acute stroke care across pre-, in-, & post-hospital care settings

CSR/CCP Goals

- Reduce the rate of premature death and disability from acute stroke
- Increase public awareness of stroke treatment and prevention
- Reduce disparities in acute stroke care by providing underserved populations with better access to treatment

CSR/CCP Strategies

- Coordinate partnerships
- Recruit Local Emergency Management Service systems and health facilities to participate in data reporting
- Establish data system infrastructure for integrated data management system
 - *Get with the Guidelines-Stroke* patient management by American Heart Assn / American Stroke Assn
- Analyze and use data
 - generate benchmarking reports
- Coordinate stroke training and resources and stroke prevention messaging
