

Hattie Rees Hanley, MPP

Director and Co-Founder, Right Care Initiative, Center for Healthcare Organizational and Innovation Research, UC Berkeley School of Public Health

Ms. Hanley co-founded the Right Care Initiative in 2007 with the Deans of the University of California, Berkeley and UCLA's Schools of Public Health, clinical experts, and State of California leadership to improve patient outcomes in high yield areas for preventing disability and death, where the science is clear, but the uptake is uneven. The Right Care Initiative is a public-private,

charitably-funded collaborative effort that has thus far worked in the areas of prevention and better management of Hospital Acquired Infections (HAI), heart attacks, strokes, diabetes, heart failure, and SARS-CoV-2. Ms. Hanley has directed the initiative since its inception, in close collaboration with leading experts in the field. The hallmark of her public policy career is bridging across the disparate arenas of business, government, health care delivery, science and academia. Ms. Hanley received her Master's degree in Public Policy from Harvard University's John F. Kennedy School of Government, after studying health economics and pre-medical coursework at UC Davis. Since that time, she has applied her background in science and public policy in the areas of clinical quality improvement, public health preparedness and improving laws to protect patients. She was instrumental in the negotiations and passage of the set of California laws known as the Patient Bill of Rights, which includes the right to a Second Medical Opinion and Independent Medical Review. The Right Care Initiative is a program within the UC Berkeley School of Public Health's Center for Health Organizational and Innovation Research (CHOIR). Ms. Hanley has been invited by the Centers of Disease Control and Prevention to be a founding member of the National Hypertension Roundtable.

Eveline Oestreicher Stock, MD

Co-Chair, Right Care Initiative Silicon Valley University of Best Practices; Assistant Professor, Cardiology, School of Medicine, University of California, San Francisco; Cardiologist, Cardiovascular Care & Prevention Center, University of California, San Francisco

Dr. Stock's expertise in Endocrinology and Cardiology at the University of California San Francisco have informed her exciting work in molecular cardiology. Dr. Stock is a leader in the field of lipoprotein metabolism, and the diagnosis and management of lipoprotein disorders for the prevention of atherosclerotic coronary heart disease. Her research interests include the role of lipoprotein subclasses as predictors of coronary artery disease and myocardial infarction. She is an Assistant Professor at UCSF, a practicing cardiologist and lipidologist, and a researcher at the Cardiovascular Research Institute at UCSF. She received her medical education at the Catholic University of Chile and completed her training in endocrine hypertension and residency at Harvard Medical School's Massachusetts General Hospital. She looks forward to continuing to work with the Right Care Initiative as a means of closing the gap between science and practice to get to zero heart attacks and strokes, especially in vulnerable populations.

Catherine Collings, MD, FACC, MS, DipABLM

President, American College of Lifestyle Medicine; Director, Lifestyle Medicine, Silicon Valley Medical Development; Director, Lifestyle Medicine, El Camino Health Medical Network

Dr. Collings is Director of Lifestyle Medicine for Silicon Valley Medical Development and El Camino Health Medical Network in the San Francisco Bay Area. She serves as current President of the American College of Lifestyle Medicine. Dr. Collings has dual board certifications in Cardiology and Lifestyle Medicine. She holds a graduate degree in exercise physiology, as well as professional culinary and wellness certifications.

She received her education from the University of California, University of Wisconsin, and Stanford University Medical Center. She is a member of the Alpha Omega Alpha National Medical Honor Society. She has served in multiple capacities and leadership positions at El Camino Hospital over the past 25 years including Medical Director of the Cardiopulmonary Wellness Center, Women's Heart Health, and the Heart and Vascular Institute and participates in the American College of Cardiology's Nutrition and Lifestyle Task Force. Within ACLM, she co-chaired the initiation of ACLM's Education Committee and has participated in course reviews. She now focuses exclusively on Lifestyle Medicine consultations, culinary medicine, and developing clinical Lifestyle Medicine programs that are both tech and human connect-enabled.

Edward M. Yu, MD, CMQ, CPPS, CPE
Chief Quality Officer, Palo Alto Medical Foundation; Co-Chair, Right Care Initiative Bay Area Silicon Valley University of Best Practices

Edward M. Yu is a Co-Chair of the Right Care Initiative Bay Area University of Best Practices. Dr. Yu serves as the Chief Quality Officer of Palo Alto Medical Foundation, one of the top performing medical groups in the United States. In this role, he directs clinical quality programs to promote

evidence-based practices in the fields of preventive health, chronic disease management, population health, and health system innovations. Dr. Yu holds expertise in change management, strategic planning involving lean management systems and service line deployment. Dr. Yu has led multiple initiatives in population health management, value-based care and evaluation sciences that have ultimately improved outcomes in clinical quality, patient experience, patient safety, and clinic operations in multi-specialty group practice. In addition to his role as Chief Quality Officer, he is the current Chairman of the PAMF Regional Quality Improvement Steering Committee. Dr. Yu is Family Medicine Board Certified and completed his residency at the UCLA David Geffen School of Medicine.

Ken Fujioka, M.D.

Director, Scripps Clinic Nutrition and Metabolic Research Center; President-Elect, National Board of Physician Nutrition Specialists; Former Director, Center for Weight Management

Endocrinologist Fujioka, MD, is the director of the Nutrition and Metabolic Research Center at Scripps Clinic. He has special clinical interests in the medical management of diabetes in overweight people, and in helping those who are seriously overweight to lose weight.

He is also the former director of the Center for Weight Management. The Center was started 20 years ago by Dr. Fujioka and has since grown to include a team of 5 physicians, 2 NPs, 1 PA, 3 RDs, a behavior specialist, and psychologist. The Center sees over 1000 patients per month. Dr. Fujioka has additionally authored over 100 papers in peer-reviewed journals (including NEJM, The Lancet, JAMA, DOM, and Obesity) on weight management, and related comorbid diseases. He has participated as a principal investigator (PI) on over 100 clinical trials, and sub-PI on numerous NIH-sponsored grants. In 1997, Dr. Fujioka authored a comprehensive standard of care for the California State Medical board on obesity treatment and has lectured to numerous political groups across the country on various obesity treatments. Dr. Fujioka enjoys teaching other health care providers and clinicians about all aspects of obesity medicine and is certified by the American Board of Obesity Medicine. He is the President-Elect of the National Board of Physician Nutrition Specialists.

Robert Kaplan, PhD

Founding Co-Leader, Right Care Technical Expert Group; Research Director, Clinical Excellence Research Center, Stanford University; Former Chief Science Officer US HHS AHRQ; Former Associate Director, National Institutes of Health

Robert M. Kaplan is a co-founder and Co-Chair of the Right Care Initiative Technical Expert Group. He has served as Chief Science Officer at the US Agency for Health Care Research

and Quality (AHRQ) and Associate Director of the National Institutes of Health, where he led the behavioral and social sciences programs. He is also a Distinguished Research Professor of Health Services and Medicine at UCLA, where he previously led the UCLA/RAND AHRQ health services training program and the UCLA/RAND CDC Prevention Research Center. He was Chair of the Department of Health Services from 2004 to 2009. From 1997 to 2004 he was Professor and Chair of the Department of Family and Preventive Medicine, at the University of California, San Diego. He is a past President of five different national or international professional organizations and has served as Editor-In-Chief for two academic journals. His 20 books and over 565 articles or chapters have been cited more than 58,000 times (H-index>108). Google scholar includes him in the list of the most highly cited authors in science. Kaplan was elected to the National Academy of Medicine (formerly the Institute of Medicine) in 2005. He is currently a faculty member at the Stanford School of Medicine Clinical Excellence Research Center (CERC).

Nirali Vora, MD

Co-Chair, Right Care Initiative Silicon Valley University of Best Practices; Professor, Neurology, School of Medicine, Stanford University; Director, Global Health Neurology; Program Director, Adult Neurology Residency, School of Medicine, Stanford University

Nirali Vora is a board-certified stroke neurologist, Associate Professor at Stanford, and a faculty affiliate of the Clinical Excellence Research Center. She provides comprehensive care for stroke and transient ischemic attack (TIA) patients, especially those with "cryptogenic" or undetermined cause for their disease. She has pioneered initiatives to improve stroke care through systems change and education on a regional and global level, including development of the first stroke unit in Zimbabwe. She is the Director of the Stanford Global Health Neurology program, as well as the Program Director of the Adult Neurology Residency Training program. She looks forward to continuing to work with patients and providers to prevent and better manage stroke, eliminate disparities in health care, and improve global neurology education.

Joseph Sky, MD, FACP, FACC

Co-Chair, Right Care Initiative University of Best Practices; Chief of Preventive Cardiology, Associate Chief of Staff, David Grant Medical Center, US Air Force

Joseph Sky, MD, is the Chief of Cardiology and Medical Director of the Heart, Lung and, Vascular Center at David Grant USAF Medical Center serving veterans, active duty military, and their families at Travis Air Force Base. Dr. Joseph Sky was raised in a community closely connected to one of the Blue Zones areas and is currently an active speaker for the Loma Linda Project. Dr. Sky received his bachelor of science from Pacific Union College and his

medical degree from Loma Linda University (1999). He completed his training in internal medicine and cardiology in the US Air Force. Prior to becoming a cardiologist, Dr. Sky served as a Flight Medicine Physician and later Chief of the Internal Medicine Branch of the US Air Force School of Aerospace Medicine where he monitored and kept our nation's pilots and those of allied air forces healthy and fit for duty. He is a specialist in integrating modern medical treatments with evidence-based preventive medicine to safely allow military pilots, unmanned aircraft operators, and commercial pilots with cardiovascular disease to continue flying. While Dr. Sky fully embraces western medicine, his enjoyment is finding patients willing to use diet and lifestyle as medicine. He returned from a tour of duty in Iraq in 2018 and is excited to be practicing at a time when science shows the proven value of complementary preventive cardiology.

Oliver Brooks, MD

Co-Chair and Hypertension Champion, Right Care University of Best Practices; Immediate Past President, National Medical Association; Chief Medical Officer, Watts Healthcare

Dr. Oliver Brooks is the Immediate Past President of the National Medical Association. In addition, he is currently the Chief Medical Officer and past Chief of Pediatric and Adolescent Medicine at Watts Healthcare Corporation in LA, California (CA). He is also a Medical

Director for L.A. Care Health Plan, one of the nation's largest Medicaid managed care plans whose mission is "to provide access to quality health care for Los Angeles County's vulnerable and low-income communities and residents". He holds staff appointments at Centinela Hospital in Inglewood, CA and at Martin Luther King Community Hospital in South Los Angeles, CA where he is Vice-Chair of the OB/Pediatrics Department and is a member of its Executive Committee. Dr. Brooks is the Chairman of the Community Clinic Association of Los Angeles County, a consortium of 30 community health centers in the southern California area and serves as the Medical Director of the Jordan and Locke High School Wellness Centers. Dr Brooks received his undergraduate degree in biology from Morehouse College in Atlanta, Georgia in 1977, graduating in three years and his medical degree in 1981 from Howard University College of Medicine. He completed a residency in Pediatrics at Children's Hospital-Oakland, where he practiced for four years before accepting a position at Watts Healthcare Corporation. At the state and local level, he served as Past President of the Golden State (CA) Medical Association and Past President of the Miller-Lawrence Medical and Dental Society.

Steve Chen, PharmD, FASHP, FCHSP, FNAP

Associate Dean for Clinical Affairs; William A. and Josephine A. Heeres Chair in Community Pharmacy; Associate Professor of Clinical Pharmacy, USC School of Pharmacy

In addition to his roles as professor and dean, Dr. Chen is part of a team of USC faculty directing \$12 million grant-funded research, evaluating the impact of pharmacist-managed patient care services for underserved populations. Dr. Chen actively partners with the state of CA Department of Public Health in evolving the state laws and regulations on the practice of pharmacy. His current clinical practice role includes the supervision of clinical and consultative pharmacy services to 19 safety net community clinics in Southern California. At these clinics, Dr. Chen oversees teams of clinical pharmacists, pharmacy residents, pharmacy students and pharmacy techs. Prior to joining the USC faculty in 1998, Dr. Chen provided administrative and clinical services to Cedars-Sinai Medical Group (CSMG) in Beverly Hills and served as a Faculty-in-Residence at Cedars Sinai Medical Center. From 1994-1998, Dr. Chen served as Clinical and Residency Coordinator at the VA Outpatient Clinic in Los Angeles. Prior to that, he helped develop the Ambulatory Care and Education Program at Sepulveda VA Medical Center also in Los Angeles. Dr. Chen's responsibilities include the provision of disease management and consultative services and coordination of clerkship students at several safety net clinics. Pharmacist-run disease management services provided include asthma, dyslipidemia, diabetes, hypertension, and heart failure. His lecture topics for the School of Pharmacy and postgraduate education include asthma/chronic obstructive pulmonary disease, arthritis, dyslipidemia, and other cardiovascular diseases. Chen received an honorary fellowship of the California Society of Health-System Pharmacists in 2000 and an honorary fellowship of the American Society of Health-System Pharmacists (ASHP) in 2001. He received the Best Practices Award from ASHP in 2002, and has NABP certification in dyslipidemia and asthma management. Dr. Chen has received 7 teaching awards from USC students and residents. In 2013, Dr. Chen was awarded the American Pharmacists Association Foundation Pinnacle Award for Individual Achievement.

Scott Flinn, MD

Co-Chair, Right Care Initiative University of Best Practices; Regional Medical Director, Blue Shield of California; Former US Navy Undersea Medical Officer with Navy Seals

Scott Flinn, MD, is a Regional Medical Director at Blue Shield of California where he focuses on improving the value of care delivered to Blue Shield members. Previously, Dr. Flinn was the Chief Medical Officer at Arch Health Partners and served 22 years in the US Navy. Highlights included two tours with the Navy SEALs, Medical Director for primary care at Naval Hospital San Diego, and Force Surgeon for Naval Surface Forces in charge of the health

care for all Navy ships worldwide. A graduate of the University of Pittsburgh medical school, Dr. Flinn is a member of the American Academy of Family Practice and the American College of Physician Executives, becoming a Certified Physician Executive in 2013. He is board certified in Family Practice with a CAQ in Sports Medicine. Dr. Flinn is a member of the Right Care Technical Expert Group, and co-founder of the Bay Area Silicon Valley University of Best Practices. He formerly co-chaired the Right Care Initiative's 1st University of Best of Practices in San Diego.

Keith Emmons, MD

Medical Director, CenCal Health of Santa Barbara (Medi-Cal plan); Co-chair, Right Care Heart Failure Work Group

Dr. Keith Emmons currently serves as Medical Director for CenCal Health, the publicly-sponsored health plan for Medi-Cal in Santa Barbara and San Luis Obispo counties. Dr. Emmons leads the department of Health Services' efforts in outpatient and inpatient medical support, and case

management. He possesses more than 20 years of experience in medical management oversight of health plans, specializing in quality of care, utilization management, and case management, among other concentrations. Additionally, Dr. Emmons supports the health plan's endeavors to uphold quality initiatives that promote efficient access to medical care for more than 180,000 CenCal Health members.

Dr. Emmons obtained his medical degree from the University of Illinois in 1980. After graduating, he continued his academic pursuits at the University of California, Los Angeles (UCLA), where he obtained a master's degree in public health in 1996. Dr. Emmons is certified by the American Board of Preventive Medicine and practiced as a surgeon in Burbank, California, before transitioning to a career in healthcare administration. He has worked at multiple health plans including UHP Healthcare, WellPoint Health Networks, Inc. (Blue Cross of California predecessor), and most recently United HealthCare.

Susan Ivey, MD, MHSA

Professor, Adjunct, School of Public Health, UC Berkeley; Director of Research, Health Research for Action

Dr. Ivey is an adjunct professor at University of California, Berkeley, School of Public Health, and Director of Research at Health Research for Action (a UCB affiliated research center). She teaches in the UCB-UCSF Joint Medical Program. She is a family physician with a Master's in Health Services Management and Policy. She also completed a 2-year post-doctoral research fellowship in Health Policy and Health Services Research at the University of California, Berkeley. Dr. Ivey conducts health services research including design and evaluation of health

care interventions, particularly for low-income populations, recent immigrants, and Asian Americans. She is especially interested in chronic disease care across diverse groups (diabetes, heart disease, and hypertension). Dr. Ivey has written over 70 peer-reviewed publications, a book on immigrant health, and several book chapters.
