

## **Hattie Rees Hanley, MPP**

### **Director and Co-Founder, Right Care Initiative, Center for Healthcare Organizational and Innovation Research, UC Berkeley School of Public Health**

Ms. Hanley co-founded the Right Care Initiative in 2007 with the Deans of the University of California, Berkeley and UCLA's Schools of Public Health, clinical experts, and State of California leadership to improve patient outcomes in high yield areas for preventing disability and death, where the science is clear, but the uptake is uneven. The Right Care Initiative is a public-private,

charitably-funded collaborative effort that has thus far worked in the areas of prevention and better management of Hospital Acquired Infections (HAI), heart attacks, strokes, diabetes and heart failure. Ms. Hanley has directed the initiative since its inception, in close collaboration with leading experts in the field. The hallmark of her public policy career is bridging across the disparate arenas of business, government, health care delivery, science and academia. Ms. Hanley received her Master's degree in Public Policy from Harvard University's John F. Kennedy School of Government, after studying health economics and pre-medical coursework at UC Davis. Since that time, she has applied her background in science and public policy in the areas of clinical quality improvement, public health preparedness and improving laws to protect patients. She was instrumental in the negotiations and passage of the set of California laws known as the Patient Bill of Rights, which includes the right to a Second Medical Opinion and Independent Medical Review. The Right Care Initiative is a program within the UC Berkeley School of Public Health's Center for Health Organizational and Innovation Research (CHOIR). Ms. Hanley has been invited by the Centers of Disease Control and Prevention to be a founding member of the National Hypertension Roundtable.

**William J. Bommer, MD, FACP, FACC**

**Statewide Chairman, Right Care Initiative University of Best Practices;  
Specialty Delegate, California American College of Cardiology and  
California Medical Association; Director, California ePCI Program;  
Director, Prevention Forward Program and Professor of Medicine,  
Division of Cardiovascular Medicine, University of California, Davis**

Dr. Bommer's service to the American College of Cardiology includes his current role on the California Executive Committee; as well as former roles as President, Vice-President, Governor, and Member of the Board of Governors. As an accomplished UC Davis Clinical Professor of Medicine, he directs UC Davis Cardiology's Noninvasive Services; directs the Cardiology Fellowship Training Program and sees patients in the Coronary Critical Care Unit. As the longest-tenures UCD

Training Director, he has trained over 200 practicing cardiologists. Dr. Bommer has been the Principal Investigator or Co-Investigator of multiple NIH, NHLBI, and international research trials. He is a member of 50 international, national, state, and university education commissions and committees. Dr. Bommer founded and is a Board Member of numerous hardware and software startup companies and is an inventor of patents for xerography, color-flow ultrasound imaging, and contrast echocardiography. His public service includes quality improvement consulting with the State of California and directs multiple programs including CA Pilot Percutaneous Coronary Intervention (PCI) (offsite) Program, CA Elective PCI (offsite) Program, and CA Cardiac Surgery and Intervention Outcomes Program. He has authored over 250 scientific publications, received over 100 Honors and Awards, presented over 1000 papers at International, National, and Statewide meetings, and coauthored California Legislation including SB 357 and SB 906. A Physics and Chemistry graduate of Cornell University, he received his medical degree from the State University of New York. He is an Honorary Lifetime Member of the British Cardiovascular Society, an avid skier, and a marathon runner.

**Steve Chen, PharmD, FASHP, FCHSP, FNAP**

**Associate Dean for Clinical Affairs; William A. and Josephine A. Heeres Chair in Community Pharmacy; Associate Professor of Clinical Pharmacy, USC School of Pharmacy**

In addition to his roles as professor and dean, Dr. Chen is part of a team of USC faculty directing \$12 million grant-funded research, evaluating the impact of pharmacist-managed patient care services for underserved populations. Dr. Chen actively partners with the state of CA Department of Public Health in evolving the state laws and regulations on the practice of pharmacy. His current clinical practice role includes the supervision of clinical and consultative pharmacy services to 19 safety net community clinics in Southern California. At these clinics, Dr. Chen oversees teams of clinical pharmacists, pharmacy residents, pharmacy students and pharmacy techs. Prior to joining the USC faculty in 1998, Dr. Chen provided administrative and clinical services to Cedars-Sinai Medical Group (CSMG) in Beverly Hills and served as a Faculty-in-Residence at Cedars Sinai Medical Center. From 1994-1998, Dr. Chen served as Clinical and Residency Coordinator at the VA Outpatient Clinic in Los Angeles. Prior to that, he helped develop the Ambulatory Care and Education Program at Sepulveda VA Medical Center also in Los Angeles. Dr. Chen's responsibilities include the provision of disease management and consultative services and coordination of clerkship students at several safety net clinics. Pharmacist-run disease management services provided include asthma, dyslipidemia, diabetes, hypertension, and heart failure. His lecture topics for the School of Pharmacy and postgraduate education include asthma/chronic obstructive pulmonary disease, arthritis, dyslipidemia, and other cardiovascular diseases. Chen received an honorary fellowship of the California Society of Health-System Pharmacists in 2000 and an honorary fellowship of the American Society of Health-System Pharmacists (ASHP) in 2001. He received the Best Practices Award from ASHP in 2002, and has NABP certification in dyslipidemia and asthma management. Dr. Chen has received 7 teaching awards from USC students and residents. In 2013, Dr. Chen was awarded the American Pharmacists Association Foundation Pinnacle Award for Individual Achievement.

## **Vito Campese, MD**

**Professor Emeritus of Medicine, Co-Director of Kidney Research Center  
Division of Nephrology and Hypertension, Keck School of Medicine at USC;  
Grand Officer, Order of the Star of Italy**

Vito M. Campese, M.D. is Co-Director of the USC/UKRO Kidney Research Center and a Professor Emeritus of Medicine, and a former chair of the Division of Nephrology and Hypertension at the Keck School of Medicine of the University of Southern California. In addition to serving as a UKRO board member, he is Chairman of UKRO's Medical Scientific Advisory Board.

A native of Bari, Italy, he received his medical degree, Summa Cum Laude, from the University of Bari. His internship, residency and fellowship in nephrology were completed at the Policlinico in Bari. Dr. Campese came to the United States to do a fellowship in hypertension at the USC (Keck) School of Medicine.

Dr. Campese has had a distinguished career at USC and the Keck School of Medicine. His first position, in 1975, was as an Assistant Professor on the Hypertension Service. He was then made an Assistant Professor in the Division of Nephrology before being elevated to an Associate Professor. He has been a full professor since 1985.

Dr. Campese is a Diplomate of the American Board of Internal Medicine, a Diplomate of the American Board of Nephrology, and a specialist on hypertension. He is also a national and international member of the American Society of Nephrology and the American Society of Hypertension. Concurrently, he is active in the American Heart Association's Council for High Blood Pressure Research and the American Society of Hypertension.

## **Oliver Brooks, MD**

**Co-Chair and Hypertension Champion, Right Care University of Best Practices; Immediate Past President, National Medical Association; Chief Medical Officer, Watts Healthcare**

Dr. Oliver Brooks is the Immediate Past President of the National Medical Association. In addition, he is currently the Chief Medical Officer and past Chief of Pediatric and Adolescent Medicine at Watts Healthcare Corporation in LA, California (CA). He is also a Medical

Director for L.A. Care Health Plan, one of the nation's largest Medicaid managed care plans whose mission is "to provide access to quality health care for Los Angeles County's vulnerable and low-income communities and residents". He holds staff appointments at Centinela Hospital in Inglewood, CA and at Martin Luther King Community Hospital in South Los Angeles, CA where he is Vice-Chair of the OB/Pediatrics Department and is a member of its Executive Committee. Dr. Brooks is the Chairman of the Community Clinic Association of Los Angeles County, a consortium of 30 community health centers in the southern California area and serves as the Medical Director of the Jordan and Locke High School Wellness Centers. Dr Brooks received his undergraduate degree in biology from Morehouse College in Atlanta, Georgia in 1977, graduating in three years and his medical degree in 1981 from Howard University College of Medicine. He completed a residency in Pediatrics at Children's Hospital-Oakland, where he practiced for four years before accepting a position at Watts Healthcare Corporation. At the state and local level, he served as Past President of the Golden State (CA) Medical Association and Past President of the Miller-Lawrence Medical and Dental Society.
