Thank you!

Next Virtual University of Best Practices: June 14, 2021, 12:00 – 2:00PM

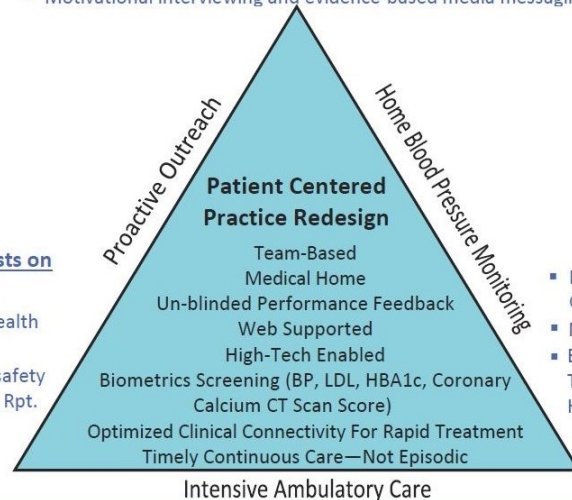

Promising Interventions to Reach Right Care Control Targets for Heart Attack, Stroke, and Diabetes Prevention and High Quality Management

Patient Activation

- Stress reduction, medication adherence, healthy sleep, nutrition & physical activity, smoking cessation
 - Evidence-based patient education (e.g., Project DULCE; Stanford Patient Self-Management)
 - Motivational interviewing and evidence-based media messaging

Clinical Pharmacists on Care Team

- CA Dept. Public Health White Paper
- HRSA.gov/patientsafety
- Surgeon General's Rpt.

Protocols

- Nationally Endorsed Guidelines (ACC, ADA)
- NICE UK (eg. chest pain)
- Bundled Medication Therapy (Aspirin, Statin, Hypertension Agents)

Deploying Tech to Improve Cardiovascular & Diabetic Outcomes

Nirav Shah, MD, MPH – Senior Scholar, Stanford University Clinical Excellence Research Center; Director, STERIS Plc; Member, National Academy of Medicine; Member, HHS Secretary's Advisory Committee on National Health Promotion and Disease Prevention Objectives for 2030

Deploying Pharmacist on the Care Team to Get Towards Zero Heart Attacks and Strokes

Steven Chen, PharmD, FASHP, FCSHP, FNAP – Co-Chair, Right Care LA UBP; Associate Dean for Clinical Affairs; Heeres Chair in Community Pharmacy; Professor of Clinical Pharmacy, University of Southern California
